

SEN Information Report

Introduction

All Shropshire maintained schools have a similar approach to meeting the needs of pupils with Special Educational Needs or Disabilities (SEND) and are supported by the Local Authority to ensure that all pupils, regardless of their specific needs, make the best possible progress in school. All schools receive support in their aim to ensure that, where families want this to happen, the need/s of SEND pupils are met in a mainstream setting wherever possible.

The broad areas of SEND needs are:

- Communication and Interaction
- Cognition and Learning
- Social, Emotional and Mental Health Difficulties
- Sensory and/or Physical

What is the Local Offer?

The Children and Families Bill now requires Local Authorities and schools to publish and keep under review information about services they expect to be available for children and young people with special educational needs (SEN) aged 0-25. The Local Authority refer to this as the 'Local Offer' whose function is to improve choice and clarity for families and to provide an important resource for parents regarding the range of services and provision in the local area.

The Special Educational Needs and Disabilities Coordinator (SENDCO), with support from the Headteacher and senior leadership team, has written this information report which will be included in Shropshire's Local Offer.

What is the Special Education Needs Information Report?

Schools use the Local Offer to meet the needs of SEND pupils as determined by school policy and what the school is able to provide. Details as to how we provide support and ensure progress, inclusion and happiness of our SEND pupils are in this report.

Should you wish to know more about what we offer our SEND pupils at St. George's Junior School, you can look through the questions below and click on them to find out about our provision for children with different needs.

Please do not hesitate to contact the school should you require any further information.

An introduction to Special Educational Needs and Disabilities at St George's

St. George's Junior School is a 'Good' school, striving to be outstanding. Our provision for Special Educational Needs and Disabilities (SEND) is 'Outstanding':

"Provision for disabled pupils and those who have special educational needs is outstanding. Well-planned programmes of support and additional help from highly effective support staff ensure that their needs are fully met" (OFSTED, November 2013).

We are proud of this and particularly proud of our team of Teaching Assistants, Learning Mentor and Higher Level Teaching Assistants who all work extremely hard to ensure that all our SEND children are included in everything wherever possible and that they feel confident in their learning and success.

Our teachers are very skilled in their ability to identify learning needs and monitor progress carefully. They will target individual children or groups of children early on, deploying the teaching assistants, setting objectives for intervention activities and consulting the SENDCO about any pupils of concern.

"Our disabled pupils and those who have special educational needs receive excellent support in school. This is through a mixture of individual, paired and small-group work. As a result, they are helped to become fully involved in all activities and make good and at times outstanding progress as a result."

"At St. George's the teaching is consistently 'Good' and more often 'Outstanding'. Class teacher input via excellent targeted classroom teaching is known as 'Quality First Teaching.'"

"The transition arrangements for pupils when they leave the school for secondary school are very well-organised and the Learning Mentor enjoys the full confidence and support of parents."(OFSTED, November 2013).

For your child this would mean:

- That the teacher has the highest possible expectations for your child and all pupils in their class.
- That all teaching is based on building on what your child already knows, can do and can understand.
- Different ways of teaching are in place so that your child is fully involved in learning in class, such as using more practical learning.
- Specific strategies (which may be suggested by the SENDCO or professionals from an outside agency) are in place to support your child to learn.
- Your child's teacher will have carefully checked on your child's progress and will have identified any gap in understanding/learning which needs some extra support to help him/her make the best possible progress. All children in school should be getting this as a part of excellent classroom practice when needed.

Parents are welcome to talk to teachers, the SENDCO and the Senior Leadership Team so that any concerns about individual pupils, their learning and enjoyment of school are listened to and responded to sensitively. Action is taken quickly; interventions are put in place to ensure children make progress.

The Special Educational Needs and Disabilities Co-ordinator and Deputy Headteacher is Mr P Glover.

Working together with Parents and Pupils

How we consult with parents and carers of children with Special Educational Needs

SEND pupils and their parents are invited into school for a Pupil Centred Plan meeting. During this meeting we hope parents will contribute information about their child's personality, what's important to them, what people like and admire about them, their strengths, interests and motivations. Most importantly, the child will contribute his/her views, wishes and feelings.

Before the meeting, we ask that both parents and pupils prepare by completing questionnaires. In consultation, the family and class teacher will write a One Page Profile, before writing the new Pupil Centred Plan which has replaced the Individual Education Plan (IEPs). Pupil Centred Plan meetings, arranged by the teachers will be held at a mutually convenient time at the beginning of the Autumn term; at least two further meetings will be held during the school year in order to review progress and talk about changes, how the child is feeling about their progress and what the pupil, the teacher and the parents are doing to achieve targets set at the last meeting.

Children with a statement of special educational needs or disabilities or a new Education and Health Care Plan (EHCP), receive an annual review meeting where long and short term targets are reviewed and the child's needs are re-evaluated. Parents and pupils are asked to contribute by completing a short questionnaire beforehand.

The SENDCO is available on Monday, Tuesday & Wednesday mornings for any parents who have concerns about their child. We have an open door policy at St. George's Junior School and we endeavour to meet and talk with you.

The SENDCO is responsible for:

- Co-ordinating the support for children with special educational needs or disabilities (SEND) and developing the school's SEND Policy to make sure all children get a consistent, high quality response to meeting their needs in school.
- Ensuring that parents are:
 - involved in supporting your child's learning
 - kept informed about the support your child is getting
 - involved in reviewing how they are doing
- Liaising with all the other people who may be coming into school to help support your child's learning e.g. Speech and Language Therapy, Educational Psychology etc...
- Updating the school's SEND register (a system for ensuring all the SEND needs of pupils in this school are known) and making sure that there are excellent records of your child's progress and needs.
- Providing specialist support for teachers and support staff in the school so they can help children with SEND in the school achieve the best progress possible.

How we consult with our pupils with Special Educational Needs

Pupils complete a questionnaire with either their teaching assistant or teacher in preparation for the Pupil Centred Plan meetings, in order to give their responses in as much detail as possible. The meetings give the opportunity to meet with their class teacher and parents or carers to talk about what is important to them, what people like and admire about them and how best to support them. The SENDCO works closely with many Teachers and Teaching Assistants and also delivers intervention sessions to many pupils during the day. Close Liaison with the Learning Mentor, who supports children with emotional, social or mental health difficulties as well as dyspraxic children, ensures pupils feelings are communicated on a holistic level.

How we involve parents and carers in the assessment and review process

After the initial Pupil Centred Plan meeting in the Autumn term, parents and their child are invited in for another two meetings to review progress and write a new Pupil Centred Plan detailing targets, the success criteria and all the support and interventions that will be put in place in order to help the pupil make progress. These meetings are held as well as normal parent's consultation evening appointments.

The SENDCO is available to talk with parents and carers about the progress of their children, especially when they haven't achieved targets set as she will guide the teacher in providing further support or intervention for the pupil and may decide to seek outside agency support or advice.

How we involve our pupils with Special Educational Needs in the assessment and review process

- Teachers and teaching assistants talk to pupils about their learning, their targets and how they are working towards the goals in their PCPs (Pupil Centred Plans).
- Targets from PCPs as well as specific reading and writing targets are referred to in teachers marking
- Pupils are encouraged and supported in self and peer assessment
- Pupils and their parents come to each PCP meeting when previous targets are reviewed and new targets are set together.
- We celebrate success

How we support our pupils at times of transition

We recognise that transitions can be difficult for a child with SEND and take steps to ensure that any transition is as smooth as possible. A transition programme is devised annually with our main feeder school Woodfield Infants school and for pupils moving on from St. George's to their chosen secondary school.

From Woodfield Infants to St. George's:

The SENDCO and the Learning Mentor from St. George's meet with the SENDCO their Learning Mentor from Woodfield to discuss support required for pupils with 'SEND needs as well as children who are not making sufficient progress. We will see the children in their classroom setting and our Learning Mentor will meet the children and join in with the nurture groups at Woodfield. This takes place throughout the Summer term.

Extensive transition arrangements will be in place for all children - working with year 3 children on projects, through music, taster days, assemblies etc. Children on SEN Support come to St. George's more often with their TA, and start to build a relationship with the class TA who will work with them the following year. Children will familiarise themselves and become comfortable with our school and staff. Some children will benefit from making a transition booklet, containing information and photographs about the people, routines and geography of St. George's, which can be referred to during the holidays before starting at their new school.

From St George's to Secondary School:

Our Learning Mentor leads an extensive transition support group for children on SEN support together with other vulnerable year 6 children. There is also another transition programme that is led by CAMHS (Child and Adolescent Mental Health) which takes place at a number of secondary schools.

Our transition programme involves a number of workshops covering:

- Worries about moving up
- Differences and similarities between key stage 2 and key stage 3
- Practical activities focusing on timetables, secondary school planners, organisational skills, friendships/communicating with new people
- Who to ask and how to ask for help
- Opportunities to look at scenarios and discuss possible outcomes for situations that may crop up in key stage 3
- Supported visits to secondary schools for some children, to practice the walk or cycle ride to school

If your child is moving to another school:

We will contact the school SENDCO and ensure he/she knows about any special arrangements or support that need to be made for your child. We will make sure that all records about your child are passed on as soon as possible.

When moving classes in school:

Information will be passed on to the new class teacher IN ADVANCE and a meeting will take place with the new teacher. All Pupil Centred Plans will be shared with the new teacher.

Our Learning Mentor meets with all pupils whom teachers feel need additional support with transition arrangements. This intervention ensures all pupils feel safe, secure and are supported when changes classes.

New children coming to St. George's:

- Friendship buddies from within their new class
- To be introduced to and have access to our Learning Mentor can help facilitating friendships through lunchtime club if they need it

How we adapt our curriculum and learning environment to include pupils with Special Educational Needs

SEN support children and their parents or carers will be invited into school in the Autumn Term to have a Pupil Centred Plan meeting. During this meeting everybody contributes to create a 'One Page Profile' document all about the pupil. Teachers are able to adapt both their teaching and setting to suit individual needs using information from shared at the meeting. The 'One Page Profile' can then form the basis for provisions needed so all adults in school are made aware how best to support each pupil with specific learning needs.

Planning and teaching will be adapted on a daily basis if needed to meet your child's learning needs. The activities planned for children will be differentiated so all children can access the learning and be challenged. Class Teachers plan lessons according to the specific needs of all groups of children in their class, and will ensure that your child's needs are met. They will not always be taught in their most preferred learning style because children need to get used to a variety of teaching styles and to learn in different ways but they will be given opportunities to learn and present their work in different ways.

Specially trained support staff can adapt the teachers planning to support the needs of your child where necessary and specific resources and strategies will be used to support your child individually and in groups.

Reviewing and evaluating the effectiveness of provision

How we assess and evaluate the effectiveness of our SEN provision and how we involve parents, carers and pupils in this process

A report is produced on an annual basis for the governing body. Included in this report is an evaluation of SEND provision. The SEND Governor, Mr Mark Davies acts as a critical friend, monitoring the effectiveness of the SEND provision in school and working with the SENDCO, having meetings every half term to talk about how the new SEND code of practice is being implemented and the provision for children with special educational needs and disabilities is improving.

The School Development Plan also includes a section on SEND, with an evaluation of what has been achieved in the previous academic year and an action plan of work to be completed during the current academic year.

The LA also carries out its own monitoring inspections, usually as part of a 3 yearly cycle. OFSTED evaluate the effectiveness of our SEN provision when the school is inspected.

How we ensure access to our facilities for all of our pupils

The school is fully compliant with DDA requirements.

- The school is on one level with easy access and wide doors.
- There is a disabled toilet.
- We ensure, where ever possible, that equipment used is accessible to all children regardless of their needs.
- After school provision is accessible to all children including those with SEND.
- Extra-curricular activities are accessible for children with SEND.

What training have our teachers and other staff had to enable them to support pupils with Special Educational Needs effectively?

Teachers and teaching assistants have training in school by the SLT, SENDCO and outside agency professionals. When TAs or Teachers are going to be working with a child with a specific Special Educational Need or Disability, they may be sent for training with a Local Authority provider or with one of our outreach providers such as Woodlands Outreach.

Over the last few years the whole school training has been focussed on dyslexia friendly teaching and classroom management strategies, ASD friendly teaching and classroom management strategies, understanding the new SEND code of practice and the implications for teachers and pupils, planning and assessing the impact of interventions, writing PCPs (Pupil Centred Plans) and One Page Profiles.

We have members of staff trained in the following areas

- Dyslexia screening
- School Nurse
- Occupational Therapy Sensory Service for children with visual or hearing needs
- Speech and Language Therapy
- Physiotherapy

How we support the emotional and social development of our pupils with Special Educational Needs

A range of provision led by the Learning Mentor:

- 'Time to talk'
- Lunchtime club (emotional and social support)
- Nurture Group
- Feelings diaries or social stories

How we obtain the services, provision and equipment required by our pupils with Special Educational Needs (including outside agencies that work with your school)

If you have any questions, concerns or complaints or compliments about our provision for pupils with Special Educational Needs

For any questions or concerns, please contact Mr P. Glover: Deputy Headteacher/SENDCO

email: admin@st-georges-jun.shropshire.sch.uk

telephone: 01743 357133

You can also make an appointment with the Headteacher: Mrs S Munro

If you have a complaint, please refer to the complaints policy on the website and follow the procedures outlined in the document.

Provision at St George's

Communication and Interaction: Speech, Language and Communication Needs

How we identify needs, assess and review progress

How we identify needs, assess and review progress	How we adapt teaching to ensure access to the curriculum	How we provide support and intervention for those with identified needs
<ul style="list-style-type: none"> • Often children have been identified as having a Speech and Language difficulty at Woodfield Infants or their previous school and we continue the support set up there. • The class teacher and the teaching assistant keep careful track of the child and record any observations. • If the child continues to be of concern the SENDCo will consult with the class teacher, teaching assistant, pupil and parent and either suggest intervention strategies or refer to the speech and language team. Speech and Language referrals can be arranged through your G.P or through school. We would meet to do at EHAF (Early Help Assessment Form) first. • The pupil will then be carefully monitored and reviewed after a term to ensure that progress is being made. If progress is not being made then either other interventions are suggested or another referral is made or statutory assessment is requested. • Pupils are regularly reviewed through internal tracking data, standardised assessment scores and national assessments. • If pupils have an Education Health Care Plan (EHCP) then they have yearly annual reviews to review their progress. 	<ul style="list-style-type: none"> • For children with language processing difficulties, they are supported using visual reminders or instructions may be written down. Teachers and teaching assistants will be mindful about how many instructions to present to the class in succession. • Children with speech and language difficulties are encouraged to learn to read by recognising whole words alongside learning to read and spell using their phonological knowledge. • Staff model correct uses of language by subtle repetition. Pupils are not expected to repeat the phrase using an adult's language. • Children are pre-taught new vocabulary and topic words before they encounter them within the classroom. • Children are encouraged to share their ideas with others within the classroom. They begin by talking about areas of interest to them and then they are encouraged to contribute within small group discussions. Once they are secure with sharing their ideas within a small group they are encouraged to share their ideas within the whole class. 	<ul style="list-style-type: none"> • Often children have been identified as having a Speech and Language difficulty at Woodfield Infants or their previous school and we continue the support set up there. • The class teacher and the teaching assistant keep careful track of the child and record any observations. • If the child continues to be of concern the SENDCo will consult with the class teacher, teaching assistant, pupil and parent and either suggest intervention strategies or refer to the speech and language team. Speech and Language referrals can be arranged through your G.P or through school. How we identify needs, assess and review progress

How we identify needs, assess and review progress	How we adapt teaching to ensure access to the curriculum	How we provide support and intervention for those with identified needs
<ul style="list-style-type: none"> • The class teacher and the teaching assistant keep careful track of the child and record any observations. • If we deem the child to have Special Educational Needs then we would ask parents to come in to meet with the child and teacher and put together a One Page Profile which will make clear the child's strengths and what is important to them as well as how best to support them in school. During the same meeting a Pupil Centred Plan (PCP) is written, which details the planned support and interventions. • If the child continues to be of concern the SENDCo will observe and either suggest intervention strategies or refer the pupils to an outside agency such as Woodlands ASD Outreach Service. • The pupil will then be carefully monitored and reviewed after a term to ensure that progress is being made. If progress is not being made then either other interventions are suggested or another referral is made. Sometimes an Early Help Assessment Framework (EHAF) is put into place. • If appropriate then a Conner's questionnaire will be completed by the parents and the school team. This will initiate a referral to CAMHS (Child and Adolescent Mental Health Services) and possibly a formal diagnosis. • Parents can also refer their child for assessment into ASD (Autism Spectrum Disorder) traits by visiting their GP. • If appropriate a request for statutory assessment is made and additional interventions 	<ul style="list-style-type: none"> • Visual timetables are used within the classroom and children are prepared in advance when there are changes to the routines. • Pupils are pre-taught new vocabulary before they are exposed to it within the classroom. • The anxiety levels of the pupils are monitored, triggers identified where possible and subtle intervention is put in place before pupils become anxious. • Pupils are given instructions and requests using straight forward language and instructions are given in smaller chunks. • The pupil's name is used at the beginning of instructions so that the pupil knows that the instruction is relevant to him/her. • Teachers and teaching assistants will be mindful about how many instructions to present to the class in succession. • Instructions given are positive, rather than negative e.g. <i>Sit properly on your chair</i> rather than <i>Don't swing on your chair</i>. • Language should be straight-forward and non-metaphorical e.g. <i>It's raining cats and dogs</i> should be avoided as this will be taken literally. 	<ul style="list-style-type: none"> • Children may be invited to join our lunchtime club and/or nurture group where social interaction skills are modelled and children's play, social interaction and team work skills are guided. Children with low self esteem will benefit from these interventions. • Children may be included in a small group or 1-to-1 intervention based on social stories, black sheep activities or SEAL activities which are planned to teach children to judge and plan their response in social situations and learn to identify and talk about emotions felt by different characters in different social situations. • Support and strategies from Woodlands ASD Outreach Service which could include: <ul style="list-style-type: none"> • Social stories / comic strip conversations. • Visual timetables • Quiet / special places offered for reflection • Key person or Learning mentor to go to if the pupil is becoming anxious

and strategies are put into place to support the pupils.

- Pupils are regularly reviewed through internal tracking data, standardised assessment scores and national assessments (SATs).
- If pupils have a statutory assessment (old Statement or new EHCP), then there progress is reviewed annually through the annual review process.

Sensory and/or Physical: Physical Difficulties

How we identify needs, assess and review progress

How we identify needs, assess and review progress	How we adapt teaching to ensure access to the curriculum	How we provide support and intervention for those with identified needs
<ul style="list-style-type: none"> • Parents are best placed to advise us about the specific physical needs of their child. We therefore rely upon good communication between home and school to ensure that concerns about the child are addressed promptly and we work as a whole team to support children with physical needs. • We would ask parents to come in to meet with the child and teacher and put together a One Page Profile which will make clear the child's strengths and what is important to them as well as how best to support them in school. During the same meeting a Pupil Centred Plan (PCP) is written, which details the planned support and interventions. • The class teacher and the teaching assistant keep careful track of the child and record any observations. • If the child continues to be of concern the SENDCo will observe and either suggest intervention strategies or refer to an external agency such as the occupational therapy team. • An assessment with the occupational therapy team will be undertaken if appropriate and then additional strategies will be implemented. • Parents can also request an assessment with the occupational therapy team by visiting their GP. • If appropriate, a request for statutory assessment is made (for an EHCP) and additional interventions and strategies are put into place to support the pupils. • Pupils are regularly reviewed 	<ul style="list-style-type: none"> • Pupils will sit with the rest of their class or small group to listen to the ideas of others. • They may have a wobble cushion • They may have or a fidget toy to keep them focused or an adult to sit near to them to keep them on task. • Pupils may be provided with resources such as pencil grips, lap tops etc. so they are able to write about their own ideas. • When the pupils are completing physical activities such as P.E. or outdoor learning, they are encouraged to participate in the same way as their peers. If this is not possible then they are given different resources such as large balls in PE or the subtle support of an adult so they are able to participate. • When the pupils are using tools and resources the appropriate use of these are modelled by an adult and specialist tools are used if appropriate. 	<ul style="list-style-type: none"> • Cool Kids gross motor skills programme • Speed Up fine motor skills programme • Pencil grips / tri-grip pencils • Yoropens • Lap tops • Dance mat touch typing programme • Wobble cushions • Fidget toys • Interventions as suggested by the occupational therapy team or Physiotherapy team

through internal tracking data, standardised assessment scores and national assessments.

- If pupils have a statement of special educational need then they have yearly annual reviews to review their progress.

Looked After Children (LAC)

How we identify needs, assess and review progress

How we identify needs, assess and review progress	How we adapt teaching to ensure access to the curriculum	How we provide support and intervention for those with identified needs
<ul style="list-style-type: none">• We have PEP meetings with teaching staff, social worker and any other professionals working with the pupil• Pupils will be assessed through the normal processes accorded to all other children in the school.	<ul style="list-style-type: none">• Teaching will be adapted for LAC children as it is for all other children	<ul style="list-style-type: none">• LAC pupils will have access to all the relevant support systems. They also benefit from additional funding through Pupil Premium and some of the assessments are funded by the LAC team. The SENCO, class teacher and support team would liaise with the LAC team and progress reviewed on a regular basis at Progress meetings.
